### **DETAILED ACTION**

1. This office action is in response to the amendment filed on March 3, 2005, in which claims 1-21 and 24 are canceled; and claims 22, 23 and 25-42 are presented for further examination.

#### ***Response to Arguments***

2. Applicant's arguments filed on March 3, 2005 with respect to claims 22, 23 and 25-42 have been fully considered and are persuasive. The rejection under 35 USC 101 and 103 of the last office action has been withdrawn.

#### ***Allowable Subject Matter***

3. Claims 22, 23 and 25-42 are allowable in light of the Applicants' arguments and light of the prior art made of record.

#### ***Reasons for Indicating Allowable Subject Matter***

4. The following is an examiner's statement of reasons for allowance: Upon searching a variety of databases, the examiner respectfully submits that "a runtime information library which includes a plurality of information objects, each information object representing one of an action and a container type, wherein each information object represents an action includes information necessary to instantiate the action at runtime; updating appropriate ones of the actions methods table to be the specific action methods associated with the added container types if any based on the information obtained from the run-time information library, wherein action methods in the copied entries of the action method table of the action of interest that are not updated are action

methods inherited from the parent action; and defining specific action methods to be performed by the new action with regard to at least some of the container types in the system based on the functionality to be imparted and thereby at least implicitly designating action methods to be inherited by the new action from the parent action, the inherited action methods to be performed by the new action with regard to the other container types in the system” in conjunction with all other limitations of the dependent and independent claims 22, 23 and 25-42 are not taught nor suggested by the prior art of record (PTO-892). Therefore, the pending claims 22, 23 and 25-42 are hereby allowed.

5. Since allowable subject matter has been indicated, applicant is encouraged to submit formal drawings in response to this Office action, *only if the Applicants have not yet provided formal drawings*. The early submission of formal drawings will permit the Office to review the drawings for acceptability and to resolve any informalities remaining therein before the application is passed to issue. This will avoid possible delays in the issue process.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
